Crown Flooring & Facilities

Our Core Services

Crown Flooring & Facilities delivers a comprehensive range of flooring and property maintenance solutions.

Whether it's small scale reactive repairs or large scale refurbishments we deliver best value solutions in every situation.

Flooring Services

Crown are now the largest flooring contractor serving the public sector. Our goal is to continue to lead the market in providing the highest levels of customer service whilst delivering best value and innovative solutions with social and environmental responsibility.

Our flooring services encompass assessment, selection, installation, and maintenance. These services are crucial for ensuring the safety, functionality, and aesthetics of public sector premises.

We offer solutions that range from small repairs to large, multi-million-pound projects covering entire estates. Our approach is focused on building long-term partnerships and delivering solutions tailored to each client's needs.

Our Services

Crown Flooring & Facilities

Solutions

Carpet Tiles:

Popular for their durability, ease of maintenance, and variety of colours and patterns. Widely used in schools, government offices, and social housing.

Sheer Carpet:

Traditional fitted or bonded carpets are warm and easy to install, clean and maintain. Widely used in social housing.

Vinyl Flooring:

Vinyl's non-porous surface, making it easy to clean and disinfect. Ideal for healthcare facilities, care homes, and high-traffic areas like kitchens and restrooms.

Safety Flooring:

Safety vinyl options offer textured surfaces for slip resistance, suitable for areas prone to spills.

Rubber Flooring:

Rubber flooring is shock-absorbing and slip-resistant, making it suitable for classrooms, playrooms, gymnasiums, and other areas where safety is a priority.

Resin Flooring:

Resin flooring is robust and durable, suitable for demanding environments such as commercial kitchens and prisons.

Linoleum Flooring:

Linoleum is durable, easy to maintain, and ideal for healthcare environments due to its hygienic properties.

Luxury Vinyl Tiles (LVT):

LVT is durable, easy to maintain, and available in various styles, making it a good option for government offices and other commercial spaces.

Timber Flooring:

Timber flooring solutions are available for spaces requiring a natural and aesthetic appeal.

Sports Flooring:

Crown Flooring also provides specialised sports flooring solutions suitable for gymnasiums and sports facilities.

Entrance Matting:

Entrance matting solutions support property managers in controlling cleaning and maintenance costs.

Crown Flooring & Facilities

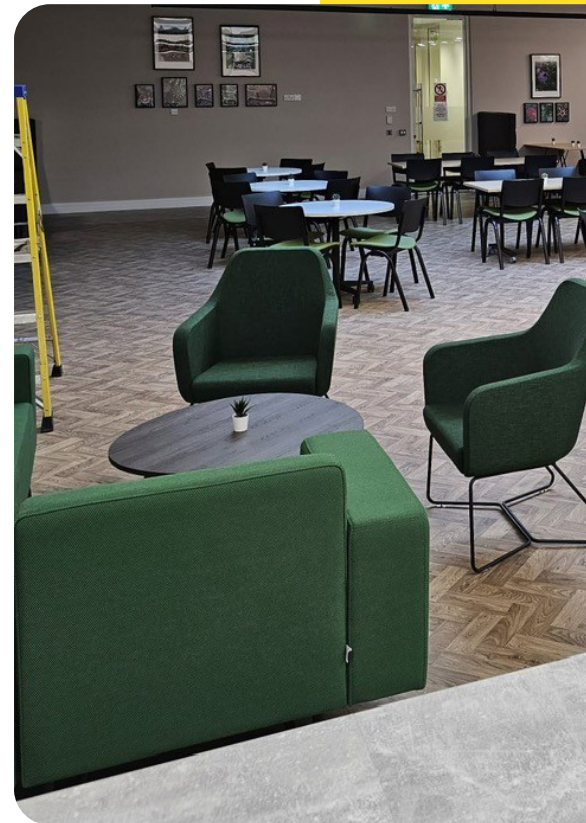

Property Maintenance Services

Our property maintenance services encompass hard FM services related to the physical structure of buildings including plumbing and electrical systems.

We are specialists in planned and reactive maintenance services typically ranging from small reactive repairs up to £0.5m building refurbishment projects.

Crown employs a team of Building & Quantity Surveyors, Project Managers and Trade Operatives to deliver a broad range of property maintenance services. Our Quantity Surveyors will provide impartial specification and technical advice, including site surveys, lifecycle analysis, environmental / carbon assessment, technical suitability reports, sampling and pricing.

Crown's Project Managers manage the delivery of each project liaising with customers to ensure high quality results are achieved with minimum disruption.

Project: Dalkia UK

School Refurbishment Programme

- Since 2015, Crown has been regularly awarded school refurbishment programmes by Dalkia UK, comprising both reactive and planned flooring works.
- The majority of works are undertaken during busy summer refurbishment programmes where resourcing and collaboration with other on-site contractors have been key to successful delivery.

Key Sectors

We Serve / Care Homes

Crown Flooring & Facilities

Project: Sanctuary Care

Bridgeview House

- Crown refurbished 22 bedrooms at Bridgeview Care Home in Dundee. All Bedrooms were fully occupied in the home so Crown refurbished one at a time over the course of 2 months, completing 3 bedrooms per week.
- Each bedroom was decanted by our team, storing furniture safely away from residents and we ensured each room was completed with furniture repositioned before the resident required access again in the evening.

Key Sectors

We Serve / Social Housing

Project: Your Housing Group

Flooring Services

- Crown provides a range of works for Your Housing from small reactive flooring repairs through to the supply and fit of multi-site refurbishment projects.
- Crown undertakes works in live/occupied supported living buildings and unoccupied social housing voids as well as in foyers supporting young people.

Project: Great Places

Flooring Services

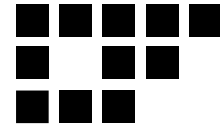

- Crown provides a range of works for Great Places including all soft floor finishes across their 16,000 schemes in the North West and Yorkshire regions.
- Working in collaboration with Great Places, Crown has evolved and adapted our service delivery and communication strategy to suit the different housing environments, including working with vulnerable residents and managing access challenges in tenanted properties where we have a narrow window to complete works.

Crown Flooring & Facilities

Key Sectors

We Serve / NHS

Project:
Harplands Hospital, Stoke-on-Trent

Shower Room Conversion

- Crown delivered this small refurbishment project for Serco, uplifting the existing flooring and wall coverings and preparing them for new hygienic wall cladding to be welded throughout the room.
- Crown installed a shower former and connected to existing drainage before completing the non-slip flooring, adding shower doors, a radiator with an anti ligature cover, an anti ligature shower curtain, uPVC T&G ceiling and an anti-ligature light fitting.

Project: Novotel Tower Bridge

Flooring Works

Crown worked closely with manufacturer Balsan to secure stairway and break-out area flooring works at Novotel Tower Bridge in London. The project involved the uplift and disposal of the old carpet tiles (recycled by a local business), self-levelling compound and installation of new Balsan carpet tiles and Morleys stair nosings.

Crown completed the project within 2 days in order to minimise disruption for the hotel.

Corporate Social Responsibility (CSR)

Crown Flooring & Facilities

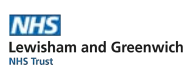

Sustainability, Compliance & Certifications

Crown Flooring & Facilities is committed to environmentally responsible business practices. We continuously implement strategies to reduce our carbon footprint and ensure ethical service delivery.

Our company is actively working towards Net Zero by 2050, with an interim goal of a 50% reduction in emissions by 2035. We take sustainability seriously, integrating environmentally responsible solutions into our work.

Our working practices, delivery methods, choice of products and recycling and waste management all make a material difference to decarbonisation of the buildings we refurbish and maintain as well as our operations across our fleet, offices and warehouses.
